ICNDT Multilateral Recognition Agreement (MRA) for Personnel Certification in NDT Certificate of Registration

NDT Society of Singapore (NDTSS)

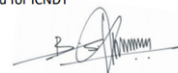

The above named NDT Personnel Certification Body (PCB) has satisfied all of the eligibility criteria for registration under the ICNDT Multilateral Recognition Agreement (MRA) for PCBs, including having undertaken to abide by the ICNDT Code of Practice, and has been nominated and accepted for registration within the terms of the Agreement signed by those Members of the International Committee for NDT (ICNDT) listed in Schedule 1 to the Agreement.

The Personnel Certification Body may therefore announce that holders of its certificates issued under these arrangements are certificated by a PCB which is registered by the ICNDT as meeting the requirements of the applicable Standards (including ISO 9712:2012 and ISO/IEC 17024:2012) and Technical Documents referenced in the schedule of conformity (scope) issued by the accreditor and/or the ICNDT.

A copy of the MRA, including a list of the signatories and a schedule of those certification bodies satisfying the criteria for registration, is available at www.icndt.org and from all parties that are signatory to the Agreement.

All signatories to the Agreement, and all PCBs registered under the Agreement, are bound to promote the recognition and acceptance of the certificates issued by all other ICNDT Registered NDT Personnel Certification Bodies.

System Architecture Diagram

Secure, modular, and scalable cloud-hosted certification infrastructure

Key Benefits and Features

System highlights delivering end-to-end digital transformation

ISO 9712 Alignment

Maintains strict governance integrity and safeguards impartiality across the entire certification lifecycle.

Full Traceability

Complete transparency with comprehensive audit trails for every application, examination, and decision event.

Workflow Efficiency

Boosts operational efficiency through automated candidate processing, smart routing, and real-time notifications.

Robust Data Security

Enterprise-grade security featuring advanced encryption, Role-Based Access Control (RBAC), and continuous monitoring.

Scalable & Audit-Ready

Extensible cloud architecture designed to grow with NDTSS, ensuring permanent readiness for SAC audits.

Examiner Profile Management

Comprehensive competency and governance tracking for certification personnel

Approved Competency Pool

Maintain approved examiner pools categorized strictly by NDT method, sector, and certification level in full alignment with ISO 9712 requirements.

Mandatory COI Declarations

Embedded conflict-of-interest checks and mandatory digital declarations prior to assignments to safeguard impartiality and governance integrity.

Digital Signatures & Consent Logs

Legally binding digital signatures for capturing examination results and grading marks, complete with robust consent logs and unalterable audit trails.

Invigilator Profile Management

Structured oversight and operational coordination for examination supervision personnel

Approved Invigilator Pool

Maintain a qualified registry of approved invigilators, tracking their specific competencies and authorizations to supervise ISO 9712 examinations.

Centre Assignments & Calendars

Dynamic scheduling tools for allocating invigilators to specific exam centres, managing shift rosters, and ensuring appropriate coverage ratios.

Conflict-of-Interest Checks

Automated screening against candidate rosters to identify potential relationships, supported by mandatory pre-exam impartiality declarations.

Attendance & Incident Logs

Digital modules for recording candidate attendance, verifying secure check-in/out, and logging any procedural deviations or exam irregularities.
