

IRI (Industrial Research Institute) Lebanon is aware that they have mistakenly issued certificates containing the ICNDT LOGO and have stated that our LOGO will no longer be used on their certificates.

The certificates should not include the ICNDT LOGO and ICNDT does NOT have knowledge of the quality of their certification scheme.

This does not imply that the certification is of a low standard but simply that ICNDT has no part in the certification scheme and does not know of its quality since they are not Schedule 2 members of ICNDT”
