- * It is noted that some PCB's are having difficulties implementing some of the changes going from ISO9712:2012 to ISO9712:2021. These organisations are in the process of re-registering. ICEC discussed these difficulties during the next ICEC meeting in September 2023 with the aim of resolving the clear challenges created by these changes in the standard. Whilst these discussions are in progress a 3 month extension has been granted.
